

ENGINEERING VACANCIES

Shift pattern may include early, late, weekend and nights

Have you got what it takes to be part of London's most dynamic and expanding bus company?

Our engineering function is undergoing an exciting period of change and development. In order to ensure that the engineering department is fit for the challenges of the future we are now looking for highly motivated individuals who are capable of meeting our customers' needs.

We are looking to recruit engineers across the following garages, which include shift and night roles:

Job Role	Location	Reference Number
Shift Engineer – MG05	Edgware Garage	LUB382
Night Engineer – MG07	Edgware Garage	LUB384

As a Mechanical or Electrical Engineer your main responsibility will be to provide a full range of repair, maintenance and servicing activities for all vehicles in line with the company and legislative standards and requirements. We have a range of vacancies within our garages and these positions operate a number of working patterns, which are mainly a flexible shift pattern, and may include unsociable hours.

Requirements:

- NVQ Level 3.
- PSV or equivalent is ideal but not essential.
- Must have previous experience working on PSV vehicles.
- Your verbal and written communication skills are just as important to us as your technical skills.
- Proficient IT skills are essential.
- Able to learn efficiently on how to use any databases or manufacturer diagnostics systems.

You will build relationships with the garage's drivers and service controllers to help ensure a smooth-running service. Your ability to work successfully with your own initiative and as part of a team will be what makes you stand out. You will also be recognised for your ability to work under pressure and to tight deadlines without compromising the quality of the work carried out.

Interested?

To apply you will need to send a CV and covering letter clearly stating which garage and reference number and explaining how you meet the requirements for this role. For more information and to apply, please contact a member of the Recruitment Department on the following email address recruitment@ratpdev.com
